

EPILEPSY WARNING

Please read before using this game or allowing your children to use it.

Some people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns in everyday life. Such people may have a seizure while watching television images or playing certain video games. This may happen even if the person has no medical history of epilepsy or has never had any epileptic seizures. If you or anyone in your family has ever had symptoms related to epilepsy (seizures or loss of consciousness) when exposed to flashing lights, consult your doctor prior to playing.

We advise that parents should monitor the use of video games by their children. If you or your child experience any of the following symptoms: dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, while playing a video game, discontinue use IMMEDIATELY and consult your doctor.

Precautions to Take During Use

- ▶ Do not stand too close to the screen. Sit a good distance away from the screen, as far away as the length of the cable allows.
- ▶ Preferably play the game on a small screen.
- ▶ Avoid playing if you are tired or have not had much sleep.
- ▶ Make sure that the room in which you are playing is well lit.
- ▶ Rest for at least 10 to 15 minutes per hour while playing a video game.
